Bremick Packaging Sustainability Strategic Plan

The Bremick organisation actively embrace the Australian Packaging Covenant Organisation (A.P.C.O) member requirements, guidelines and obligations as published on the A.P.C.O website.

We are aware of, and are actively working towards, Australia's 2025 National Packaging Targets.

We continue to use the A.P.C.O Sustainable Packaging Guide (S.P.G) process to continuously improve our packaging design and manufacture concepts.

The above commitment & actions have resulted in the development of a team approach that collaboratively engages with internal & nominated external stakeholders across the packaging supply chain.

Together, we are focused on reducing packaging weight, improving packaging sustainability, environmental performance, and packaging recyclability.

Michael Hawksford
Managing Director
